

Steve Meadows

Masterlink Auckland and
Northland Regional Manager

A sales and marketing specialist by background, I bring honesty, integrity and a responsive approach to all my work dealings.

I enjoy building relationships and have a good understanding of other people's needs—taking time to listen, share knowledge and find solutions to any problems as they arise.

In my role as Masterlink Auckland and Northland Regional Manager, it is always rewarding to place good, motivated apprentice candidates with equally motivated hosts.

Most hosts have been apprentices themselves and enjoy sharing their knowledge and guiding their apprentices through the training journey.

Getting the right fit is paramount—it's a long time to be working together. The ultimate goal is always to place the apprentice in a happy and safe learning environment with a visible future career pathway.

Once the arrangement is in place, my role is to maintain the good working relationship and help out wherever I can.

Outside of work, I have a real appreciation for the outdoors and time spent with family, friends and adventures in this amazing country I was fortunate to be born in.

Be in touch if I can help you on your apprenticeship training journey!

"We have two Masterlink apprentices and needed another. After a chat with Steve and a couple of follow up phone calls, we have appointed a year one apprentice. Our industry is screaming out for new people and it is great that Steve identified someone who I am sure will fit wonderfully well into the team and be an asset to our industry. Thanks for your prompt and efficient work, Steve."
